Maximum Marks	2 Marks

Customer Journey Map

This document maps a StudyAI student's experience from discovering the platform to actively using it for exam preparation covering their actions, the app touch points they interact with their thoughts and emotions at each step, which team owns that part of the product, and where we can improve the experience to make studying faster and less stressful.

Phase of Journey	Stage 1: Discovery & Sign Up	Stage 2 :Upload & AI Processing	Stage 3:Practice & Progress Tracking
Actions <i>What does the customer do?</i>	- Searches for an AI study tool - Visits StudyAI landing page - Signs up with email/password	- Logs in - Uploads (PDF/DOCX/TXT)notes - Waits for AI to generate content	- Reviews AI summary - Practices with flashcards and quiz - Checks analytics dashboard
Touchpoint <i>What part of the service do they interact with?</i>	- Landing page - Signup form (Firebase Auth)	- React Dropzone upload UI - Backend Flask API + Groq AI engine	- Flashcard flip UI - Quiz Generator - Chart.js analytics dashboard
Customer Thought <i>What is the customer thinking?</i>	"Can this really save me revision time?" "I hope signup is quick"	"Will it understand my notes?" "Is it stuck or still processing?"	"This actually highlights what matters" "Am I improving?"
Customer Feeling <i>What is the customer feeling?</i>	Curious, slightly skeptical	Anxious during wait, relieved once content appears	Confident, motivated to keep studying

Process Ownership <i>Who is in the lead on this?</i>	Frontend team (Signup flow)	Backend + AI team (Upload, Groq API integration)	Frontend + Analytics team (Dashboard, Chart.js)
Opportunities <i>How can we improve this stage?</i>	Add Google sign-in for faster onboarding	Add a progress bar during AI processing to reduce uncertainty	Add streaks/reminders to boost retention
