

Project Demo Planning

Date	11 July 2026
Team ID	
Project Name	StudyAI-Smart AI educate Companion&Quiz Generator
Maximum Marks	1 Mark

Project Demo Planning:

StudyAI turns a student's raw lecture notes into ready-to-use exam preparation summaries, flashcards, and quizzes in seconds. This demo plan walks through that exact journey: starting from the problem of time-consuming manual revision, moving into a live walkthrough of uploading a real document and watching the AI generate study material in real time, and ending with the analytics dashboard that shows how a student's quiz performance improves over time.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction & Problem Statement	students spend too much time organizing notes before exams	2	Mythri
2	Solution Overview	Walk through StudyAI's approach AI-generated summaries, flashcards	2	Mythri
3	Live Signup/Login	Demonstrate account creation and secure login via Firebase Auth	1	Mythri
4	File Upload & AI Generation	Upload a sample PDF/DOCX show the AI-generated summary, flashcards, and quiz in real time	4	Mythri
5	Analytics Dashboard	Show quiz scores and performance trends via the Chart.js dashboard	2	Mythri
6	Q&A	Answer questions on architecture, tech stack, and design choices	3	Mythri

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Set context before diving into the live app
2	Solution Overview	Briefly mention tech stack (React, Flask, Groq API, Firebase)
3	Live Feature Demonstration	Core of the demo — show upload → AI generation → quiz → dashboard flow
4	Q&A Session	Be ready to explain the Groq API integration and Firestore data model
