

Team Involvement in Demonstration

Date	11 July 2026
Team ID	
Project Name	StudyAI-Smart AI educate Companion&Quiz Generator
Maximum Marks	1 Mark

Team Involvement in Demonstration:

StudyAI was conceived, built, and deployed entirely solo from designing the React frontend and Flask backend, to integrating Firebase Authentication and the Groq AI engine, to debugging deployment issues on Render. This document records that end-to-end ownership: every part of the demo, from the problem statement to the live feature walkthrough to answering technical questions, was handled independently by the same person who wrote the code.

S.No	Team Member Name	Role in Demo	Section Presented	Contribution Summary	Participation (Active / Passive)
1	S.Mythri	Sole Developer & Presenter	Introduction, Solution Overview, Live Demo	Designed, built, and deployed the entire application frontend, backend, and AI integration	Active
2			Q&A
